

Pattern-Printing-2

Write a program that prints a diamond-pattern from the given number.

```
Eg:
Input:
3

Output:
1
101
10101
101
1
```

Input Format

Input will contain one integer.

Constraints

$$0 < n < 128$$

Output Format

Print diamond shaped pattern where the middle layer has the given number of 1's and 0's, while the edges shape down.

Sample Input 0

```
3
```

Sample Output 0

```
1
101
10101
101
1
```

Explanation 0

The middle row contains 3 1's and the edges contain 1 1's.
