I am a full-stack web developer with over 2 years of experience. My expertise includes analyzing, designing, developing, and integrating front-end and back-end-based applications using HTML, CSS, JavaScript, React.js, Node.js, MySQL, and Next.js. A key achievement of mine is creating a web application that enables 10,000 users to search for nearby restaurants, rent cars, and find free spaces.

KEY SKILLS

HTML

CSS

Javascript frameworks

React JS

PROFESSIONAL EXPERIENCE

Full Stack Web Developer

Radical Start | Madurai, IN

Nov 2021 - Present

- Created a web application that allowed 10K users to search for nearby restaurants like uber eats
- Created a new feature in rental website like Airbnb using HTML, CSS, MySQL, and JavaScript.
- Developed a responsive email template in HTML5 and CSS3 that increased the clickthrough rate by 78%, an improvement from previous years.
- Developed front-end code using HTML, CSS, React js, Node js and MYSQL to create a responsive web application that works across 29 devices, including desktops and tablets.
- Optimized 29 web pages for speed and performance by eliminating unnecessary scripts/styles and increasing load time by 69%.
- Created an interactive map for a rental, food delivery, taxi booking website that allowed 7K users to search by neighborhood and get real-time feedback about a property.
- I also worked with GraphQL and Sequelize
